# SENOSAFE® BP

WEILBURGER Graphics GmbH +++ product information on SENOSAFE® BP varnishes +++

## SENOSAFE® BP

This product class comprises our special varnish systems which contribute to product security in brand protection.

The SENOSAFE® BP class as a whole currently comprises 30 products. For further information we and our sales partners worldwide are pleased to be at your service at all times.

### Example product:

#### SENOSAFE® BP TWIN-ICI

The varnish combination which only becomes visible with the aid of UV light and a decoding lens. This security feature can be integrated not only on printed but also on unprinted areas of packaging and labels, and it can be also used in reprints of existing designs for purposes of counterfeit protection. The TWIN-ICI process was developed jointly with Jura JSP.

Icon	Product class	Application processes		Products	
	<b>SENOLITH® WB</b> Dispersion coatings	Coating unit Digital Gravure Inline - offline	Damping unit Flexo Inking unit Web offset	Anti-slip coatings Blister coatings Calender coatings Effect primers Heat-resistant coatings Inline primers Matt coatings Primers Release coatings Twin coatings	Barrier coatings Bronzing coatings Effect coatings Film coatings High gloss coatings Label coatings Playing card coatings Protective coatings Satin matt coatings
