SENOSOFT® WB

WEILBURGER Graphics GmbH +++ product information on SENOSOFT® WB water-based coatings +++

SENOSOFT® WB

SENOSOFT® WB is the name we have given to our matt, water-based soft-skin coatings with their unique surface feel for production of the most sophisticated print products.

This product class is available for offset, screen, flexo and gravure application processes and workable both inline and offline.

For further information we and our sales partners worldwide are pleased to be at your service at all times.

Example product:

SENOSOFT® WB MATT COATING 350200

This finishing coating distinguishes itself by its unique feel. The surface feels like velvet and gives your printed product a thoroughly sophisticated look.
